

The Wayne County Human Services Quality Council is working in cooperation with the Wayne County Commissioners and the Wayne County 911 Center to offer families with special needs and circumstances an opportunity to have pertinent information on file with 911 operators in the event there is an emergency in your home.

The information you choose to share with the Wayne County 911 Emergency System is intended to assist ambulance/fire personnel when they are responding to a call for help from your home. ***This information will be used ONLY for the 911 Emergency System and will be handled confidentially.***

If you have a child or adult in your home with special needs (i.e.: autistic, wheel chair dependent, deaf, blind, etc.) or have special circumstances in your home (i.e.: oxygen tanks, service animal) and you think it is important for first responders to have the information, please complete this form and return it to the address on the back of this brochure.

Please Mail this form to:
