From the listing above, a total of 103 miles of base repair and surface paving improvements were scheduled to be completed throughout the County. Shown on the map to the right are projects started in the previous construction season and projects that will be bid during 2021 but may span beyond the 2021 calendar year.

Interstate Bridge Projects

Interstate 84 Bridges were also scheduled across three locations in Sterling Township. These locations were over Wilcox Creek and Sepko Road (TR 325), over SR 191 (Twin Rocks Road) and over Butternut Creek. Interstate 84 roadway reconstruction and resurfacing also took place across the entire section of Interstate 84.

State Bridges

One State Route bridge construction project was scheduled over Mill Creek on State Route 507 in Dreher Township.

Wayne County Transportation Improvement Program

One of the requirements as an independent county is working directly with Penn DOT District 4-0 in the development of the County's 12-year Transportation Improvement Plan (TIP), which is updated every two years. The 2021 Wayne County Twelve Year Program (TYP) approved by the Pennsylvania Transportation Commission is as follows. Some projects may be completed and future schedules revised at the time of this annual report printing.
