

Agriculture Conservation Assistance Program  
Landowner Concurrence Form to Install Structural or Vegetative Activities

This form is used for the applicant to obtain written documentation of landowner concurrence for the purpose of installing structural or vegetative conservation activities on land they lease. Structural and vegetative conservation activities are those activities with a lifespan greater than one year.

| <b>Applicant Name:</b>       | <b>Landowner Name(s):</b> |                          |                         | <b>Date Prepared:</b> |
|------------------------------|---------------------------|--------------------------|-------------------------|-----------------------|
| <b>Application No.</b>       | <b>Farm Name (opt):</b>   |                          |                         |                       |
| <b>Conservation Activity</b> | <b>Unit</b>               | <b>Proposed quantity</b> | <b>Lifespan*(years)</b> |                       |
| 1.                           |                           |                          |                         |                       |
| 2.                           |                           |                          |                         |                       |
| 3.                           |                           |                          |                         |                       |
| 4.                           |                           |                          |                         |                       |
| 5.                           |                           |                          |                         |                       |
| 6.                           |                           |                          |                         |                       |
| 7.                           |                           |                          |                         |                       |
| 8.                           |                           |                          |                         |                       |
| 9.                           |                           |                          |                         |                       |
| 10.                          |                           |                          |                         |                       |

*\* The practice lifespan is the period in which the conservation practices are to be used and maintained for their intended purposes, as defined by NRCS or State Conservation Commission standards.*

**Landowner Concurrence**

By signing this form, I, the landowner, hereby agree that the above-named applicant, if awarded a contract with the \_\_\_\_\_ County Conservation District or Commission has permission to install and maintain conservation activities on the land identified. I understand that I am not a party to any contract between the District or Commission and the applicant to install the above listed activities.
