A. Public Comment – Ray Vogt stated to Vice Chair Non that he had spoken to Dyberry Township's Supervisor Bruce Vargoe regarding the condition of Town Hill Road needing grading and dust control on the Dyberry Township side and the possibility of Clinton Township maintaining Dyberry's 300 feet and charging Dyberry a reasonable fee for the service. Matt Curtis expressed concern over the decision at the previous meeting to not bid out snow blowing for Clinton I as well as dead trees on the road's edges still being a hazard. Chair Zefran said that each of those concerns would be addressed later in the meeting. Ron Poska said that the wage tax was put on to pave roads but expressed concern that it was not being done. Attorney Treat noted that use of general funds is decided on by governing Supervisors at the time. Chair Zefran invited all to attend the Budget work sessions in October and November. Mike Urban complained that the Supervisors voted to give the Browndale Fire Department ten thousand dollars for the year after the response from the 2019 Survey clearly showed that the majority of Clinton Township was not in favor of a fire tax. Tom Baileys concurred with Chair Zefran that the survey letter was about not instituting a fire tax, which the board did not do. Attorney Treat said that this is a political issue and not a legal issue, and that the board had a responsibility for the safety and care of all of Clinton Township's citizens, and that ultimately it was a board decision.

purchased their first aerial truck in 2004. In 2019 that truck was totaled when it was hit in an accident which was not the fire department's fault. The truck was replaced with insurance money. Greg Bock explained that it is not truly a ladder truck, but an engine with a pump and is fully equipped, and yes, it does have a ladder on it. It serves as a rescue truck and is much safer, especially with metal roofs.

I. **Old Business**

- **Dirt & Gravel Low Volume Road Grant – Ravnika Road** – When asked, it was noted that above the grant amount the township has already paid roughly \$25,000 to Millon for tree cutting, and \$25,00 for fabric and pipe. There may be several hundred dollars outstanding.
- Chair Zefran said that he had a question for the other Supervisors. He proceeded to inquire about the actual costs of snow plowing the approximate twenty miles of Clinton I and twelve miles of Clinton II. He noted the amount paid out for plowing Clinton II between the dates of October 2019 and March of 2020 and Clinton Township's payroll during winter months, estimating that about 80% of that was plowing. Chair Zefran said that the data was important as he was trying to find out what is the most cost effective for the township. He noted that Clifford township subs out all of their snow plowing and that it only makes sense to bid it out to see what the numbers are. Chair Zefran made a motion, seconded by Vice Chair Brian Non, to put Clinton I and Clinton II out for separate bids for winter snow removal, bidding by the hour. Vice Chair Non clarified that he wanted the comparison to be accurate and he wanted the plowing to be done by 550 trucks. Zefran agreed and said that Non would write the bid. Supervisor Curtis asked if the snow plowing was bid out would the township layoff their workers and have them collect unemployment, to which Chair Zefran said that all of that would be looked into.
- The secretary was asked to generate a letter to PennDOT to put up a school bus sign.

Vice Chair Non made a motion, seconded by Supervisor Curtis that the Diamond Communication tower be deemed approved by the Clinton Township Supervisors. All voted yes. The motion carried.
